

# WOW ... nice package!

We have the perfect package to fight contamination in washdown applications:

**304 stainless steel bevel or inline gear reducer:**

- 95.5%–97% efficiency
- C-face or IEC input
- PTFE seals on output shaft
- smooth body minimizes particle/bacteria collection
- highly resistant to most acids, alkalis and corrosion

**304 stainless steel C-face motor:**

- encapsulated stator + epoxy rotor
- resin-filled stator entrance (inside conduit box)
- patented oil/water resistant breather vent

**Movitrac LTE-B inverter:**

- IP66/NEMA 4X enclosure
- SBus (CAN-based) communicates with PLC
- single or three-phase input

**SEW**  
**EURODRIVE**
